SBI Preliminary Model Paper - 6

By Ramandeep Singh
Quantitative Aptitude

Directions : (Q. 1 to 5): In each of the following number series, a wrong number is given, find out that number.

1) 3 9 23 99 479 2881 20159
   a) 9  
   b) 23  
   c) 99  
   d) 479  
   e) 2881

2) 1 3 6 11 20 39 70
   a) 3  
   b) 39  
   c) 11  
   d) 20  
   e) 6

3) 50 51 47 56 42 65 29
   a) 51  
   b) 47  
   c) 56  
   d) 42  
   e) 65

4) 2 13 27 113 561 3369 23581
   a) 27  
   b) 13  
   c) 113  
   d) 561  
   e) 3369

5) 7 4 6 9 20 52.5 160.5
   a) 6  
   b) 4  
   c) 20  
   d) 9  
   e) 52.5

Directions (6 to 10): Find out the approximate value that should come in the place of question mark (?) in the following question. (You are not expected to find out the exact value.)

6) 27 × 164 + 3379 = ? 32.630
   a) 105400  
   b) 4000  
   c) 8200  
   d) 690  
   e) 6300

7) 134% of 3894 + 38.94% of 134 = ?
   a) 5300  
   b) 5500  
   c) 5000  
   d) 4900  
   e) 5280

8) 1.65% of 8471 + 0.61% of 9326 = ?
   a) 76  
   b) 78  
   c) 75  
   d) 80  
   e) 95

9) (4874 + 5995 + 3329) ÷ (712 + 510 + 325) = ?
   a) 9  
   b) 11  
   c) 7  
   d) 12  
   e) None of these

10) 63.5% of 8924.19 + 22% of 5324.42 = ?
    a) 6278  
    b) 6128  
    c) 6228  
    d) 5624  
    e) 6817

Directions (11 to 12): Study the information carefully to answer the questions that follow:

A basket contains 3 blue, 2 green and 5 red balls.

11) If three balls are picked at random, what is the probability that at least one of them is red?
    a) $\frac{1}{5}$  
    b) $\frac{7}{12}$  
    c) $\frac{1}{2}$
12) If four balls are picked at random, what is the probability that two of them are green and two
are blue?
   a) $\frac{3}{5}$  
   b) $\frac{1}{2}$  
   c) $\frac{1}{18}$  
   d) $\frac{1}{70}$  
   e) $\frac{11}{12}$

13) In how many different ways can the letters of the word INDIGO be arranged?
   a) 1680  
   b) 360  
   c) 2520  
   d) 840  
   e) 1260

14) 8 men can complete a piece of work in 12 days. 4 women can complete the same piece of
work in 48 days and 10 children can complete that piece of work in 24 days. In how many
days can 10 men, 4 women and 10 children together complete the work?
   a) 12 days  
   b) 15 days  
   c) 6 days  
   d) 8 days  
   e) None of these

15) If the digits of a two-digit number are interchanged, the number so obtained is greater than the
original number by 27. If the sum of the two digits of the number is 11, what is the original
number?
   a) 47  
   b) 38  
   c) 74  
   d) 83  
   e) None of these

16) A boat takes 8 hours to cover a distance while travelling upstream. Whereas while travelling
downstream, it takes 6 hours. If the speed of the stream is 4 kmph, what is the speed of the
boat in still water?
   a) 16 kmph  
   b) 18 kmph  
   c) 28 kmph  
   d) Cannot be determined  
   e) None of these

17) If the numerator of a fraction is increased by 250% and the denominator by 400% the
resultant fraction is $\frac{7}{19}$. What is the original fraction?
   a) $\frac{9}{5}$  
   b) $\frac{5}{9}$  
   c) $\frac{10}{19}$  
   d) $\frac{1}{19}$  
   e) None of these

18) A, B, C and D are four consecutive even numbers and their average is 65. What is the product
of A and D?
   a) 4092  
   b) 4352  
   c) 4216  
   d) 3968  
   e) None of these

19) A sum of Rs.1634 is divided among A, B and C such that A receives 25% more than B and B
receives 25% less than C. What is A’s share in the amount?
   a) Rs.456  
   b) Rs.494  
   c) Rs.570  
   d) Rs.628  
   e) None of these

20) The average of four positive integers is 72.5. The highest integer is 117 and the lowest integer
is 15. The difference between the remaining two integers is 12. Which is the higher of the two
remaining integers?
   a) 76  
   b) 84  
   c) 74  
   d) Cannot be determined  
   e) None of these

21) The difference between the simple interest and the compound interest obtained on a principal
amount at 5 pcpa after 2 years is Rs.35. What is the principal amount?
22) A circle and a rectangle have the same perimeter. The sides of the rectangle are 14 cm and 30 cm. What is the area of the circle?
   a) $312 \, cm^2$  
   b) $1218 \, cm^2$  
   c) $456 \, cm^2$  
   d) Cannot be determined  
   e) None of these

23) In how many ways can a committee consisting of 5 men and 6 women be formed from 8 men and 12 women?
   a) 744  
   b) 612  
   c) 778  
   d) 628  
   e) None of these

24) In a test consisting of 80 questions carrying one mark each, Shilpi answered 65% of the first 40 questions correctly. What percent of the other 40 questions does she need to answer correctly to score 75% on the entire test?
   a) 40%  
   b) 75%  
   c) 60%  
   d) 85%  
   e) None of these

25) After giving a discount of 30% on marked price a shopkeeper gets a profit of 40% on cost price. What percent of the cost price is the marked price?
   a) 25%  
   b) 44%  
   c) 50%  
   d) 56%  
   e) None of these

26) A dishonest dealer sells the goods at 10% loss on the cost price but uses 25% less weight. What is the percentage profit or loss?
   a) 25% profit  
   b) 20% loss  
   c) 22% loss  
   d) 20% profit  
   e) 24% profit

27) On Rs.3000 invested at a simple rate of interest 4% per annum, Rs.600 is obtained as interest in a certain number of years. In order to earn Rs.2000 as interest on Rs.5000 in the same number of years, what should be the rate of simple interest?
   a) 7%  
   b) 8%  
   c) 6%  
   d) 5%  
   e) None of these

28) Divide Rs.5500 between A and B so that A's share at the end of 3 years may equal B's share at the end of 5 years, compound interest being at 20%.
   a) A –3000, B –2500  
   b) A –2600, B –2900  
   c) A –2000, B –3500  
   d) A –2400, B –3100  
   e) A –2500, B –3000

29) A can do a piece of work in 8 days and B can do it in 5 days. They work together for 2 days and then A leaves the work. How long will now B take to finish it?
   a) $1 \frac{3}{4}$ days  
   b) $1 \frac{2}{3}$ days  
   c) $1 \frac{3}{7}$ days  
   d) $1 \frac{4}{9}$ days  
   e) $1 \frac{5}{7}$ days

30) A man travels 420 km in 5 hours partly by train and partly by car. Had he travelled all the way by train he would have saved $\frac{3}{4}$ of the time he was in car and would have arrived at his destination 2 hours early. Find the distance he travelled by car.
   a) 89.72 km  
   b) 90.69 km  
   c) 93.34 km  
   d) 96.71 km  
   e) 98.54 km
Directions (Q. 31 to 35): Study the table carefully to answer the questions that follow:

Number of candidates appeared and qualified for an examination in six management institutes over the years

31) Approximately what percentage of candidates qualified with respect to those appeared from all the six institutes together in 2012?
   a) 12%  
   b) 13%  
   c) 15%  
   d) 18%  
   e) None of these

32) What is the approximately average number of candidates qualified from Institute D over the given years?
   a) 177  
   b) 193  
   c) 207  
   d) 188  
   e) 169

33) The percentage of candidates qualified with respect to those appeared is the highest for which of the following Institutes in 2010?
   a) D  
   b) A  
   c) F  
   d) E  
   e) None of these

34) The percentage of candidates qualified with respect to those appeared from Institute B is the lowest during which of the following years?
   a) 2007  
   b) 2008  
   c) 2010  
   d) 2009  
   e) None of these

35) The number of candidates qualified from Institute C in 2008 and 2009 together is what percent of the number of candidates appeared from Institute F in 2009 and 2010 together? (Rounded off to two digits after decimal)
   a) 10.06%  
   b) 14.46%  
   c) 13.56%  
   d) 15.56%  
   e) 11.46%

Reasoning Ability

Directions (Q. 36-40) Study the following information to answer the given questions.

Six plays – A, B, C, D, E and F are to be staged on six days of the week starting from Monday and ending on Saturday. Play C is staged on Tuesday. Plays A, F and B are staged one after the other in the same order. Play D is not staged on Monday or Wednesday.

36. How many plays are staged after play A is staged?
   a) One  
   b) Two  
   c) Three  
   d) Four  
   e) Can’t be determined
37. Four of the following five form a group based on the days that they are staged. Which one of the does not belong to that group?
   a) EC  
   b) FD  
   c) CA  
   d) AF  
   e) BD  

38. Which play is staged immediate before the day play E is staged?
   a) B  
   b) A  
   c) F  
   d) D  
   e) There is no such play staged  

39. If play D was staged on Monday, which of the following plays would definitely be staged on Saturday (all the other conditions given above remain the same)?
   a) B  
   b) A  
   c) E  
   d) E or B  
   e) Can’t be determined  

40. Which play is staged on Thursday?
   a) B  
   b) E  
   c) D  
   d) F  
   e) Can’t be determined  

Directions (Q. 41-46) Study the following information to answer the given questions.

Nine friends L, M, N, O, P, Q, R, S and T are sitting around a circle facing the centre. T sits 5th to the right of R. N is not an immediate neighbour of either R or T. M sits between S and P. N sits 4th to the left of P. O sits 2nd to the right of Q. S is not an immediate neighbour of T.

41. Who is 2nd to the right of M?
   a) R  
   b) T  
   c) L  
   d) Can’t be determined  
   e) None of these  

42. If all the nine friends are made to sit alphabetically in the clockwise direction starting from L, positions of how many will remain unchanged (excluding L)?
   a) None  
   b) One  
   c) Two  
   d) Three  
   e) Four  

43. Four of the following five are alike in a certain way based on their seating positions in the above arrangement and so form a group. Which is the one that does not belong to the group?
   a) LP  
   b) SP  
   c) TS  
   d) LN  
   e) QO  

44. Which of the following is O’s position with respecto to M in the anti-clockwise direction starting from M?
   a) 4th to the left  
   b) 5th to the right  
   c) 3rd to the right  
   d) 5th to the left  
   e) None of these  

45. If S:Q then N:?
   a) R  
   b) O  
   c) L  
   d) T  
   e) None of these  

46. Who is to the immediate left of T?
   a) O  
   b) Q  
   c) L  
   d) Can’t be determined  
   e) None of these
Directions (Q. 47-50) These questions are based on six statements. For each question two conclusions numbered I and II are given. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically and definitely follows from the given statements disregarding commonly known facts.

Give answer
a) If only conclusion I follows
b) If only conclusion II follows
c) If either conclusion I or conclusion II follows
d) If neither conclusion I nor conclusion II follows
e) If both conclusions I and II follow

Statements:
- Some necklaces are bangles.
- All bangles are ornaments.
- Some ornaments are treasures.
- No treasure is picture.
- All colours are pictures.
- Some pictures are necklaces.

47. Conclusions:
I. All treasures if they are also bangles they are also necessarily ornaments.
II. All necklaces if they are also colours they are also necessarily pictures.

48. Conclusions:
I. All ornaments which are necklaces are necessarily bangles.
II. No colour is treasure.

49. Conclusions:
I. Some colours are necklaces.
II. Some ornaments are necklaces.

50. Conclusions:
I. Some treasures are not bangles.
II. Some treasures that are bangles are also necklaces.

Directions (Q. 51-55) Study the following information to answer the given questions.

Seven friends T, U, V, W, X, Y and Z are sitting in a straight line facing North. W sits 5th to the right of T. W does not sit at any of extreme ends. Two people sit between Z and X. Y sits 3rd to the left of U. Y sits exactly in the middle. Z is not an immediate neighbour of Y.

51. What is Z’s position with respect to W?
   a) 2nd to the left  
   b) 3rd to the right 
   c) 4th to the left 
   d) 3rd to the left 
   e) 4th to the right

52. Who is 2nd to the right of T?
   a) Y  
   b) X  
   c) U  
   d) V  
   e) None of these

53. Four of the following five are alike in a certain way based on their seating positions in the above line and so form a group. Which is the one that does not belong to the group?
54. If all the seven friends are made to sit alphabetically from right to left, positions of how many will remain unchanged?
   a) None  
   b) One  
   c) Two  
   d) Three  
   e) Four

55. Who sit at the extreme ends of the line?
   a) XZ  
   b) VX  
   c) YZ  
   d) XT  
   e) TU

Directions (Q. 56-60) Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer:

a) If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

b) If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

c) If the data either in statement I alone or in statement II alone are sufficient to answer the question.

d) If the data even in both statements I and II together are not sufficient to answer the question.

e) If the data in both statements I and II together are necessary to answer the questions.

56. Is S, T’s aunt?
   Statements:  
   I. K is the father of two children P and T. 
   II. T is S’s niece.

57. Who among S, T, U and V is the tallest?
   Statements:  
   I. U is shorter than only T. 
   II. V is taller than only S.

58. Out of three friends L, M and N each one likes chocolates, ice-cream or chips (not necessarily in the same order) who out of the three, likes chips?
   Statements:  
   I. L does not like chocolates. 
   II. N likes ice-cream.

59. What is today’s date (not taking into account the month and the year)?
   Statements:  
   I. Exactly four weeks ago, the date was 24th. 
   II. The previous month was one of the longest months in terms of number of days.

60. How will ‘WATCH’ be coded in the code language?
   Statements:  
   I. In that code language, ‘PERIL’ is coded as ‘QFQIM’. 
   II. In that code language, ‘FOSTERS’ is coded as ‘GPTSFST’.

61. Effect: The temple at the religious site wears a deserted look will with the number of devotees trickling down.
   Which of the following can be a possible cause of the above effect?
   a) A structural engineer had visited the temple a month back and had declared the structure unsafe.
   b) The temple is facing a drastic depletion of its funds which had accumulated over the years due to offerings made by devotees.
   c) The local corporation decided to donate a huge amount of money to the temple for its renovations.
d) The village housing the religious site has qualified priests to perform religious ceremonies
e) A famous actor recently visited the temple and paid his respects to the deity

62. **Statement:** The income tax authorities carried out raids at three different business houses in the city last week.

Which of the following can be a possible effect of the above statement?

a) The three business houses are regular defaulters in payment of their income tax
b) The income tax department had received a tip off about the illegal activities going on in the three business houses
c) The government decided to look into the matter and has appointed an inquiry committee
d) Other business houses took immediate action to clear off all their income tax dues. In order to avoid a raid on their establishments
e) The authorities intend to conduct raids in several other business houses in the vicinity

63. **Effect:** As a step to regulate private hospitals, the state health department is framing rules to ensure all such hospitals are registered with it.

Which of the following can be a possible cause of the above statement?

a) The department realised that private hospitals charge much less for treatment as compared to government hospitals
b) Government run hospitals do not maintain the same standards as private hospitals
c) The department realised that several hospitals were rejecting cases stating lack of infrastructure
d) Apart from the number of doctors, nurses and beds, the kind of procedure a hospital can carry out based on its infrastructure will also be registered and detailed
e) Private hospitals not registering with the department shall be forced to do so and will have to pay hefty penalties

64. **Statement:** The constable has been recommended for a suitable reward by his superior in recognition of his sincere duty and busting of several gangs of criminals actively involved in the loot and incidents of pick-picketing.

Which of the following can be assumption implicit in the above statement?

a) The superior is certain that the recommendation would be denied
b) The number of criminals apprehended by this particular constable was exceptionally high
c) The constable desires to be momentarily compensated for his efforts
d) The superior wants to set an example for his other juniors by recommendign the reward
e) Rewards recognising the sincerity and accomplishments of policement are given

65. **Statement:** The college has finally received accreditation and has gained the status of a deemed university.

Which of the following can be a possible effect of the above statement?

a) The principal of the college will now have to be a retired government official
b) Number of students seeking admission to this college in the next academic year would drop significantly
c) The college will charge lesser fees from all its students despite not getting a grant from the government
d) The college will reduce the number of courses that it runs by a significant margin
e) The reputation of the college amongst the students population in general has improved

**Directions (Q. 66-70) Study the following information to answer the given questions.**

Seven friends – T, U, V, W, X, Y and Z are students of a school studying in different standards – VI, VII and VIII. Not less than two and not more than three students study in each
standard. Each of them likes to play a different sport in his spare time, viz., Carrom, Badminton, Chess, Scrabble, Cards, Table Tennis and Basketball, but not necessarily in the same order.

X does not study in standard VI and likes Table Tennis. The one who likes Chess studies in standard VIII. U studies in standard VII only with Y. V likes Carrom and studies in the same standard as W and T. No one studying in standard VI likes Badminton or Cards. W does not like Basketball and U does not like Cards.

66. Which sport does U like?
   a) Table Tennis  b) Badminton  c) Basketball
d) Carrom  e) Can’t be determined

67. Who likes to play Scrabble?
   a) W  b) U  c) T
d) Z  e) None of these

68. Which of the following represents the students studying in standard VIII?
   a) X, Y  b) Z, T  c) X, Z
d) U, Y  e) None of these

69. Which of the following combinations student-standard-sport is correct?
   a) W-VIII-Scrabble  
   b) U-VI-Badminton
   c) T-VI-Cards
d) Z-VIII-Chess  e) None of these

70. Which sport does Y like?
   a) Scrabble  b) Cards  c) Badminton
d) Chess  e) Can’t be determined

**English Language**

**Directions (Q. 71-80)** Read the following passage carefully and answer the questions given below it.

The King of Kanchi set off to conquer Kamat. He was victorious in battle. The elephants were laden with sandalwood, ivory gold and precious stones, taken from the conquered kingdom of Kamat. They would be a part of the victory parade for his subjects. On his way back home he stopped at a temple, finished his prayers to the goddess and turned to leave. Around his neck, was a garland of scarlet hibiscus and as was the custom for all, his forehead was anointed with red sandal paste. His Minister and the court jester were his only companions. At one spot, in a mango grove by the wayside, they spied some children play. The King said, “Let me go and see what they are playing.”

The children had lined up two rows of clay dolls and were playing warriors and battles. The king asked, “Who is fighting with whom?” They said, “Kamat is at battle with Kanchi.” The king asked, “who is winning and who is the loser?” The children puffed their chests up and said, “Kamat will win and Kanchi will lose.” The Minister froze in disbelief, the King was furious and the jester burst into laughter.
The King was soon joined by his troops and the children were still immersed in their game. The King commanded, “Cane them hard.” The children’s parents came running from the nearby village and said, “They are naïve, it was just a game, please grant them pardon.” The King called his commander and ordered, “Teach these children and the village a lesson so that they never forget the king of Kanchi.” He went back to his camp.

That evening the commander stood before the King. He bowed low in shame and said, “Your Majesty, with the exception of hyenas and vultures, all lie silent in the village.” The Minister said, “His Majesty’s honour has been saved.” The priest said, “The goddess has blessed our King.” The jester said, “Your highness, please grant me leave to go now.” The King asked, “But why?” The jester said, “I cannot kill, I cannot maim, I can only laugh at God’s gift of life.” Trembling in the face of the King’s anger he bravely continued, “If I stay in your Majesty’s court, I shall become like you and I shall forget how to laugh.”

71. Why were the elephants carrying loads of gold and other valuables?
   a) This was what the king had looted from Kamat to distribute among his soldiers as a reward
   b) This was the King’s offering to the deity out of gratitude for making him victorious
   c) It was what the King had plundered from Kamat to display to the people of his kingdom as a sign of victory
   d) So that the people of the kingdom of Kamat acknowledged him as their new ruler

72. Why did the King anoint his head with red sandal paste?
   a) As a mark of celebration to show he had been victorious
   b) It was the usual practice for all devotees at the temple
   c) To show other devotees that he was king
   d) To priest requested him to do so

73. Which of the following cannot be said about the jester?
   A. He was not a loyal subject of the king.
   B. He was afraid of the king’s temper.
   C. He did not support the king’s war against Karnat.
   a) A and C
   b) Only A
   c) A and B
   d) All of these
   e) None of these

74. What excuse was given for the children’s behaviour?
   a) They were disobedient to their parent’s wishes
   b) They were unaware of the true facts of the battle
   c) They were upset that their army had lost
   d) They were in the habit of lying

75. Why did the jester laugh at the children’s reply to the king?
   A. They correctly predicted the outcome of the battle.
   B. Their reply was cheeky because they knew he was the king.
   C. He wanted to show that their reply was a joke to save them from being punished by the king.
   a) Only A
   b) A and B
   c) Only C
   d) B and C
   e) None of these

76. Which of the following is true in the context of the passage?
   a) The king stopped at the temple to see what else could be plundered
   b) The people of the village to which the children belonged developed great respect for the king
   c) The commander was ashamed at having obeyed the king’s orders to cane the children
   d) The jester was unhappy that the king had defeated the army of Karnat
   e) The children had shown disrespect to the goddess by playing so close to the temple
77. Why did the jester resign from his post?
   a) He felt that the king was too influenced by the Minister
   b) To show that he disapproved of the king’s action of punishing the children
   c) He did not want to accompany the king on his war campaign
   d) He was no longer able to make the king laugh
   e) None of these

78. Which of the following describes the Minister?
   A. He was jealous of the jester.
   B. He was the king’s most valuable advisor.
   C. He did not have a good sense of humour.
   a) Only A  b) Only C  c) A and C
   d) A and B  e) None of these

79. Which of the following was/were the outcome/s of the soldiers beating the children?
   A. The animals began to howl and wanted to attack the soldiers.
   B. The children’s parents went to the king to beg for mercy.
   C. The priest offered prayers to the goddess of the temple.
   a) Only A  b) Only B  c) A and B
   d) All of these  e) None of these

80. Why was the king angry with the children?
   a) Because the game they were playing was dangerous
   b) They had lied to him
   c) They did not recognize him as king
   d) They had unknowingly insulted him
   e) They were rude to him

Directions (Q. 81-85) Which of the phrases (1), (2), (3) and (4) given below each sentence should replace the word/phrase printed in bold in the sentence to make it grammatically correct? If the sentence is correct as it is given and no correction is required, mark (5) as the answer.

81. The poor Brahmin led a hand to mouthful existence and could use any job which paid him a little.
   a) handful to mouthful existence
   b) hand to mouth existence
   c) handing for mouthful existing
   d) hand and mouth exist
   e) No correction required

82. In order to earning decent living we need to have a good job which pays a substantial amount of money.
   a) earned decency life
   b) earning decency live
   c) earn a decent living
   d) earned decently life
   e) No correction required

83. We went to the famous restaurant to eat and were served piped hot food.
   a) served piping hotter
   b) serving pipe hot
   c) served piping hot
   d) serve pipe hotten
   e) No correction required
84. Akshay considered Suresh a complete **pain in the neck** as he kept asking baseless questions.
   a) paining in the neck
   b) painless neck
   c) painful necks
   d) pain in necking
   e) No correction required

85. I **jump through hoop** to finish this project in time but was not rewarded adequately.
   a) jumped through hoops
   b) jumping for hooping
   c) jumped on hoop
   d) jumping from hoop
   e) No correction required

**Directions (Q. 86-90)** Each question below has two blanks, each blank indicating that something has been omitted. Choose the set of words for each blank which best fits the meaning of the sentence as a whole.

86. Adding to a growing body of research **for** cutting back on sweetened beverages it is now found that drinking **fewer** sugary drinks may help lower blood pressure.
   a) for, all
   b) sustaining, increased
   c) against, lesser
   d) behind, more
   e) supporting, fewer

87. The blame game for the air tragedy is already in full **swing** with the authorities involved making attempts to **cover** for themselves.
   a) sway, defend
   b) view, try
   c) fledged, protect
   d) swing, cover
   e) roll, hide

88. The actress, wearing a dark gray suit and open necked shirt, sat **through** the proceedings looking nervous throughout, occasionally frowning as her lawyer **spoke** with the judge.
   a) through, spoke
   b) on, argued
   c) for, addressed
   d) with, discussed
   e) along, lectured

89. It was an excellent social evening with people from all **types** of life getting a chance to let their hair **down**.
   a) areas, drop
   b) realms, flow
   c) arena, undone
   d) walks, down
   e) types, loose

90. There can be no denying the fact that in sports, star coaches have the **work** to get something extra out of their **work**.
   a) apprehension, work
Directions (Q. 91-100) In the following passage there are blanks, each of which has been numbered. These numbers are printed below the passage and against each, five words/phrases are suggested, one of which fits the blank appropriately. Find out the appropriate word/phrase in each case.

There is a considerable amount of research about the factors that make a company innovate. So is it possible to create an environment (91) to innovation? This is a particularly pertinent (92) for India today. Massive problems in health, education etc. (93) be solved using a conventional approach but (94) creative and innovative solutions that can ensure radical change and. (95) There are several factors in India’s. (96) Few countries have the rich diversity that India or its large, young population (97). While these (98) innovation policy interventions certain additional steps are also required. These include (99) investment in research and development by (100) the government.

91. a) incentive 
b) facilitated 
c) impetus 
d) stimuli 
e) conducive 
92. a) doubt 
b) question 
c) inference 
d) objective 
e) controversy 
93. a) should 
b) never 
c) must 
d) cannot 
e) possibly 
94. a) need 
b) consider 
c) requires 
d) necessary 
e) apply 
95. a) increase 
b) chaos 
c) growth 
d) quantity 
e) advantages 
96. a) favour 
b) leverage 
c) esteem 
d) challenges 
e) praises 
97. a) endows 
b) prevails 
c) occurs 
d) blessed 
e) enjoys 
98. a) promotes 
b) endure 
c) cater 
d) aid 
e) jeopardise 
99. a) restricting 
b) inspiring 
c) increased 
d) acute 
e) utilising 
100. a) combining 
b) participating 
c) also 
da) both 
e) besides 

Answers:

1. The series is $3 \times 2 + 3 = 9$, $9 \times 3 \quad 4 = 23$, $23 \times 4 + 5 = 97$, $97 \times 5 \quad 6 = 479$, $479 \times 6 + 7 = 2881$, $2881 \times 7 \quad 8 = 20159$
Hence, there should be 97 in place of 99.
2. The series is $1 \times 2 + 1 = 3$, $3 \times 2 + 0 = 6$, $6 \times 2 \times 4 = 70$
   Hence, there should be 37 in place of 39

3. The series is $50 + 1^2 = 51$, $51^2 = 26$, $47 + 3^2 = 56$, $56^2 = 40$, $40 + 5^2 = 65$, $65^2 = 29$.
   Hence, there should be 40 in place of 42.

4. The series is $2 \times 2 + 7 = 11$, $11 \times 3 = 33$ + $6 = 27$, $27 \times 4 = 113$, $113 \times 5 = 562$, $561 \times 6 + 3 = 3369$, $3369 \times 7 = 23581$.
   Hence, there should be 11 in place of 13.

5. The series is $\frac{1}{2} + \frac{1}{2} + 1 + 1 + \frac{1}{2} + \frac{1}{2}$ ...
   Hence, there should be 5 in place of 6.

6. $32.630 = 27 \times 164 + 3379 = 4428 + 3379$
   Or, $? \approx 8167 + 33 = 8200$

7. $? = \frac{134 \times 3894^2 + 3894 \times 134}{100} \approx \frac{134 \times 3900 + 39 \times 134}{100}$
   $= 526 + 52 = 5728 \approx 5280$

8. $(8471 \times 1.65\%) = (9326 \times 0.61)$
   $= 85 \times 1.6 + 93 \times 0.6 = 136 + 55.8$
   $\approx 80.2 \approx 80$

9. $? = \frac{14196}{1547} \approx 9.17 \approx 9$

10. $? = \frac{635 \times 89249 + 22 \times 532442}{100}$
    $= 63.5 \times 89 + 22 \times 53$
    $\approx 5651 + 1166 = 6817$

11. Total number of balls = 3 + 2 + 5 = 10
    So, $n(S) = \binom{10}{3}$
    Now, $P$ (at least one red) = $1 - P$ (no red)
    $= \binom{5}{3} \binom{7}{1}$
    $= 1 \times \frac{10}{120} = \frac{11}{12}$

12. Picked P (2 green + 2 blue)
    $\because$ required probabability
    $= \binom{2}{2} \times \binom{3}{2} \binom{1}{0}$
    $= \frac{1 \times 3}{21} = \frac{1}{70}$

13. Total number of letters in the word INDIGO is 6. However ‘I’ occurs twice.
    $\therefore$ required number of ways = $\frac{6 \times 1 \times 2}{2!} = 360$

14. Work done by (8 x 12) men
    = $(4 \times 48)$ women = $(10 \times 24)$ children
    i.e. 1 man = 2 women = 2.5 children
    $\therefore$ required number of days = $\frac{10 \times 24}{10 \times 25 + 4 \times 25 - 2 + 10} = \frac{10 \times 24}{40} = 6$ days
15. We have,
   Difference of two digits = \( \frac{27}{9} \) = 3
   Sum of two digits = 11
   The two digits are \( \frac{11 + 3}{2} \) and \( \frac{11 - 3}{2} \)
   i.e. 7 and 4. Thus, the number will be either 74 or 47. But the number will be 47 because 47 < 74

16. Let the speed of the boat in still water be \( x \) kmph.
   Then, \( (x + 4) \times 6 = (x - 4) \times 8 \)
   Or, \( 6x + 24 = 8x - 32 \)
   Or, \( x = 28 \) kmph

17. Let the fraction be \( \frac{x}{y} \)
   Then, \( \frac{350x}{500y} = \frac{7}{19} \)
   Or, \( \frac{7x}{10y} = \frac{7}{19} \)
   Or, \( \frac{x}{y} = \frac{10}{19} \)

18. Average = \( \frac{x + x + 2 + x + 4 + (x + 6)}{4} \) = 65
   Or, \( x = 62 \) and \( x + 6 = 68 \)
   :. product of A and D = 62 \times 68 = 4216

19. Here, A : B = 125 : 100 = 5 : 4
   B : C = 75 : 100 = 3 : 4
   Now, A : B : C = 15 : 12 : 16
   Hence, A’s share = \( \frac{15}{(15+12+16)} \times 1634 \) = Rs.570

20. Let the remaining integers be \( x \) and \( x + 12 \)
   Then, \( 117 + x + (x + 12) + 15 = 72.5 \times 4 \)
   Or, \( 2x = 146 \)
   :. \( x = 73 \)
   :. required number = \( x + 12 = 73 + 12 = 85 \)

21. Difference = sum \( \left[ \frac{r}{100} \right]^2 \)
   Or, \( 35 = \text{sum} \left[ \frac{5}{100} \right]^2 \)
   :. sum = \( 35 \times 400 = \text{Rs.14000} \)

22. Perimeter of rectangle = 2 (length + breadth) = 2 (14 + 30) = 88 cm²
   Now, perimeter of the circle = \( 2\pi r \)
   Or, \( 2\pi r = 88 \)
   :. \( r = \frac{44}{\pi} \)
   Area of the circle = \( \pi r^2 \)
   \( = \pi \times \frac{44}{\pi} \times \frac{44}{\pi} = \frac{44 \times 44}{22} \times 7 = 616 \text{ cm}^2 \)

23. Required number of ways = \(^8\text{C}_3 \times ^{12}\text{C}_5 = 51744 \)

24. Required % = \( \frac{60 \times 40 \times 65}{40 \times 100} \times 100 = \frac{34}{40} \times 100 = 85% \)
25. Let the CP be Rs.100.
Then, SP = Rs.140
∴ Marked price = 140 × \( \frac{100}{70} \) = Rs.200
So, required percentage = \( \frac{100}{200} \times 100 \) = 200%

26. Percentage loss or gain = \( \frac{\text{percentage error in weight}}{100} \) \times 100
e = \( \frac{25 - 10}{100} \times 100 \% = \frac{15}{75} \times 100 \% = 20 \%
The positive sign indicates that there is a profit of 20%

27. Time = \( \frac{60 \times 100}{3000 \times 4} \) = 5 years
∴ Rate = \( \frac{300 \times 100}{5 \times 500} \) = 8%

28. Suppose that share of A = Rs.x
Share of B = Rs. (5500 – x)
According to the question,
x + \( \frac{20 \times \frac{3}{5}}{100} \) = (5500 – x) + \( \frac{20 \times \frac{2}{5}}{100} \)
Or, x + \( \frac{6 \times \frac{6}{5}}{5} \times \frac{6}{5} \times \frac{6}{5} \) = (5500 – x) × \( \frac{6 \times 6}{5 \times 5} \)
Or, \( \frac{6x}{5} \) = 5500 – x
Or, 11x = 5 × 5500
∴ x = 500 × 5 = Rs.2500
Share of A = Rs.2500
Share of B = 5500 – 2500 = Rs.3000

29. Work done by A in 1 day = \( \frac{1}{8} \)
Work done by B in 1 day = \( \frac{1}{5} \)
Work done in 2 days when A and B work together = \([ \frac{1}{8} + \frac{1}{5} ] \times 2 = \frac{13}{20} \]
∴ remaining work = 1 – \( \frac{13}{20} \) = \( \frac{7}{20} \)
∴ remaining work will be done by B in \( \frac{\frac{7}{20}}{\frac{7}{5}} \times 5 = \frac{7}{4} \) days = 1 \( \frac{3}{4} \) days

30. \( \frac{3}{4} \) of total time in car = 2 hours
∴ total time in car = \( \frac{2 \times 4}{3} \) = \( \frac{8}{3} \) hours
Total time spent in train = \( [ \frac{5}{8} \times \frac{7}{3} ] = \frac{7}{3} \) hours
If 420 km is covered by train, the distance covered = \( \frac{420}{3} \times \frac{7}{3} \) = 326.66 km
∴ Distance covered by car = (420 – 326.66) = 93.34 km

31. Total candidates appeared from all six institutes in 2012 = 1923 + 2085 + 1894 + 1762 + 1532 + 1574 = 10770
Total candidates qualified from all six institutes in 2012 = 243 + 255 + 264 + 197 + 210 + 223 = 1392
∴ required % = \( \frac{1392}{10770} \times 100 \) = 13%

32. The number of candidates qualified from D over the given years
= \( \frac{175 + 182 + 126 + 248 + 190 + 197 + 205}{7} \)
\[
= \frac{1313}{7} = 188.14 \approx 188
\]

33. Percentage of candidates qualified over appeared is the highest in Institute D in 2010 = \(\frac{248}{1748} \times 100 = 14.19\% \)

34. Percentage of candidates qualified w.r.t. appeared from Institute B is the lowest in 2010 = \(\frac{145}{1898} \times 100 = 7.63\% \)

35. Number of candidates qualified from Institute C in 2008 and 2009 = 182 + 208 = 390
Number of candidates appeared from Institute F in 2009 and 2010 = 1748 + 1654 = 3402
\[
\therefore \text{required } \% = \frac{390}{3402} \times 100 \approx 11.46\%
\]

57. Option A

I. \( T > U > (S/V) \)
II. \( (T/U) > V > S \)
Data in statement I alone are sufficient to answer the question.

58. Option E

L – Chips from I
M – Chocolates
N – Ice-Cream from II
So, from both statements, we can find who likes chips or chocolates or ice-cream.

59. Option E

According to II, longest months in terms of number of days = 31 days
From statement I 24\(^{th}\) + 7 = 31
Now three weeks 7 \times 3 = 21\(^{st}\)

60. Option C
61. Option A

The main cause for number of devotees tricking down at the religious site because of a structural engineer had visited the temple a month back and had declared the structure unsafe.

62. Option D

Income tax authorities carried out raids due to non-payment of tax or illegal money so as an effect business houses took immediate action to clear off all their income tax dues in order to avoid raid.
63. Option E
The rule is going to frame for compulsory registration else charging fine.

64. Option E
Reward is giving for recognition and fulfilling task as well as sincerity.

65. Option E
Accreditation improves reputation of the college
